

April 28, 2016

FOR IMMEDIATE RELEASE

North Platte 1st - 6th Street

Weather permitting, US Hwy 83/Jeffers Street is scheduled for a traffic switch on May 2. Traffic will be reduced to one northbound lane and one southbound lane from 1st Street through 8th Street. Left turns will not be allowed during this time. East/West traffic will also be shifted to the south lanes at the intersection of 4th Street and Jeffers. During the construction there will be a 12' maximum width restriction through the project. Due to turning radius being difficult for semi-truck traffic, they are encouraged to use an alternate route. Work is anticipated to be completed late summer of 2016.

Motorists are reminded to be extra careful in and near highway work zones and to buckle up every trip.
